

BHARAT INSTITUTE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE, Recognized by the Govt. of T.S. and Affiliated to JNTUH)

Mangalpally (Village), Ibrahimpatnam (Mandal), Ranga Reddy District - 501 510, Telangana

Ph: 08414-252313/399/642/644, E-Mail: principal@biet.ac.in

5.1.3. Number of capability enhancement and development schemes:

In its endeavor to improve the employability and bringing level-1 companies to the college for recruitment of the students, constant efforts are being carried out by our institution for personal enhancement. Some of our students who are eligible and interested are taken by the industry before completion of the course.

The capability enhancement and development schemes provided by the institute are

1. Guidance for competitive examinations:

Competitive examinations are conducted by various industries for recruitment of personnel. To provide the necessary guidance about competitive examinations and create awareness among the students the college provides guidance for competitive examinations. Well known resource persons are invited for special guidance to students. Technical sessions and guest lectures are conducted as part of this guidance to the students for facing the competitive exams.

Separate campus recruiting training (CRT) classes are conducted to the students of all classes along with the regular class work. Students are trained in analytical and verbal reasoning, arithmetic and quantitative ability. The college also arranges various seminars and guest lectures periodically to encourage the students to prepare for competitive exams.

CRT Classes

CRT Training Team from FACE

2. Career Counseling:

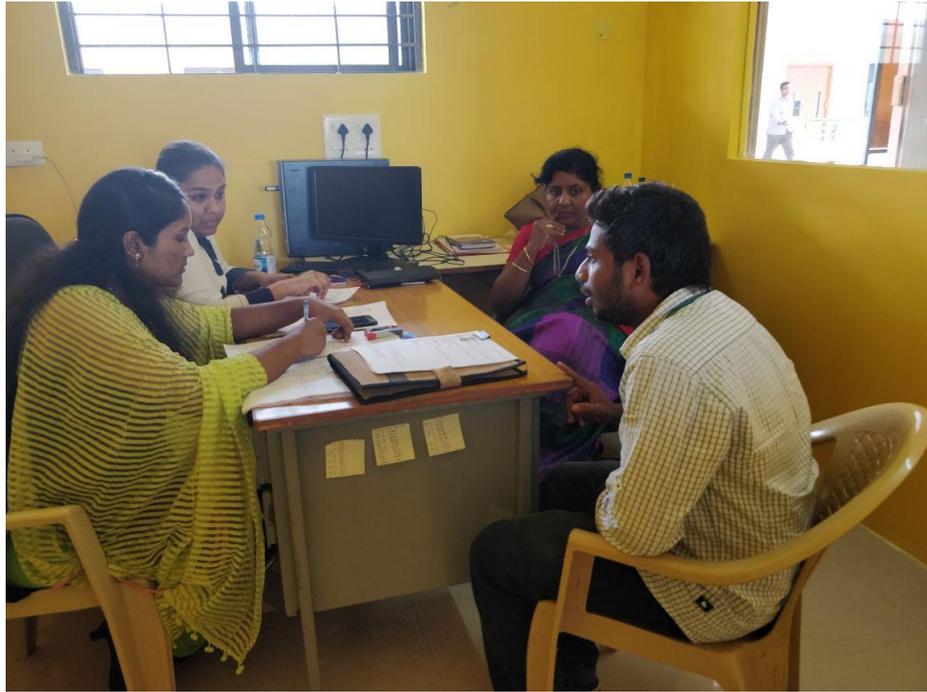

The Placement cell of BIET monitors the training and placement activities. It interacts with the relevant industry regularly and trains the students according to the needs of the concerned industry.

Each department has a separate placement cell which will identify the needs of the students in the respective department and plan for necessary training. Apart from this, the college also has a placement hub which goes hand in hand with the placement cell.

The placement cell and hub organize a number of career counseling programs for 3rd and 4th year students. These programs include (and are not limited to) guest lectures by HRs of companies, group discussions, verbal reasoning, arithmetic, mock interviews etc.

3. Soft skill development

Soft skill development improves relationship with the people. An engineer is supposed to be complete only with adequate soft skills. This will finally determine the level of success.

Soft skill training

The college organizes soft skill development programs to provide personal attributes like, work ethics, communication skills, attitude and emotional intelligence which are important for success in their career. These attributes are addressed by way conducting group discussions, oral presentations, mock interviews, role plays, JAMs etc.,

4. Remedial coaching

The college has a proven mechanism by way conducting mock tests in every subject at the beginning of a new semester to categorize the students as slow to advanced learners. In order to uplift the weak students, the college provides remedial coaching. Such classes are conducted after the regular classes. Comprehensive notes and question banks are given to the students during remedial classes. The weak students are thoroughly monitored by the senior faculty member of the respective subject. Remedial coaching not only improves the academic skill but also raise the level of understanding fundamental concepts that provide strong foundation for further academic progress. This will also help strengthen the knowledge skill set. The guidance and support provided in this coaching enables the student to come up to the level needed for pursuing higher studies confidently.

Remedial /Bridge Classes Schedule

5. Language Lab

The language lab is the key for all-round progress and development of the student. It is intended to induce learning and training to the students in gaining proficiency in English communication with the active help of contemporary technology. The college has a state of the art language lab with more than 100 computers that use latest software and hardware.

The students are specially trained in the language skills like reading, writing, listening and speaking. They are further encouraged to use the lab in self-learning mode to improve their pronunciation and conversation skill. The exclusive and dedicated seminar room with mirrors helps the student overcome the fear of giving oral presentation and improve their oratory skill.

Language Laboratories

6. Yoga and Meditation

In making a better engineer for the society, it is necessary that the mind, body and soul should be balanced. In this current world of stress and anxiety, there should be a holistic approach to balance them.

The college organizes Yoga and meditation sessions periodically to improve physical and mental health along with control over mind and body. Such courses are found to help the students to reduce anxiety and nervousness effectively.

Yoga and Meditation

7. Personal Counseling

Personal counseling is provided by the college to the students to confront with the challenges faced by them. It provides an opportunity to explore their problems in a supportive environment.

Every 20 students are provided with a counselor (Mentor) who maintains a close rapport with them, so that they feel free to share their personal problems. Personal counseling in this college is confidential and allows the students to explore their concerns like, difficulty in concentration on studies, stress, depression, demotivation etc.,. These sessions provide an opportunity to the students for better understanding of themselves and others, set personal goals and improve towards desired change.

Student-Parents counselling by mentor
